## SUMMARY

As a passionate Software Engineer and Project Manager, I focus on turning business needs into practical and effective technical solutions. I have a solid background in gathering requirements, designing software architecture, and working closely with stakeholders to understand project goals. My ability to plan, analyze, and choose the right structure helps ensure the delivery of high-quality, high-performance applications and I'm always excited to learn more and grow in this field.

## EXPERIENCE

### • Project Management Specialist and UAT Coordinator for Alfouad money transfer 2024 - present

1. Testing new systems to make sure they work correctly and adding needed features to meet the company's goals.
2. Creating project plans and following up with all departments to ensure smooth and high-quality project delivery.
3. Supervising banking system integration projects to ensure smooth and secure connections.
4. Coordinating communication between AlFouad's management, the software provider, and other parties to ensure clear communication and successful project results.
5. Collecting business requirements, setting priorities, and sharing them with the team as clear technical tasks.

### • Software Analyst and frontend developer for Al-tahhan center application - 2024

In this project, I played a crucial role in the requirement gathering phase, collaborating closely with clients to understand their needs and expectations also I took the initiative to design the user interface and user experience, and a part of the dashboard using React.

### • Software tester (تطبيق لغتي هويتي) - 2024

Analyzed test results and prepared detailed reports to track progress and provide insights for future development cycles.

### • Front-End developer for A TO Z APPLICATION - 2023

ATOZ application is a project in Damascus University. The application specializes in all aspects related to travel, including bookings, dining options. selecting Flutter for mobile app و creating an engaging UI/UX design to enhance user experience
